No. You do not need a ClickBank ID to add the Web Widgets to your site. This is a totally optional affiliate program (managed by ClickBank.com) that gives you the possibility of making money from your Surfnetkids Web Widgets.

You can put the Web Widgets on your site, and still enjoy them without joining the ClickBank program. Some of our Web Widgets members have told us that their schools do NOT allow them to join any affiliate programs. That is fine. Please feel free to enjoy the free daily web content without joining the ClickBank affiliate program.

If you decide you want to join the ClickBank program, you can get a ClickBank nickname (also known as a ClickBank ID) at http://www.clickbank.com/promote_products.html

After you join the ClickBank affiliate program, you can add your ClickBank ID to your Web Widgets account by clicking on "Your Member Profile" in your membership area:
<http://www.surfnetkids.com/widgets/login.php>
